

GL / GH GRIPPERS

A summary about grippers and what we offer....

- 5 cylinder sizes: 16, 28, 32, 35, 40
- GL: Modular 360° swivel head adjustment
- GL: Flange and orbital rod mounts
- GH: 3 series of sizes [mini, standard, heavy duty]
- GH: over 50 gripper head combinations
- GH: 2/4 point gripping

EC SERIES POWER CLAMPS

A summary about power clamps....

- Toggle lock clamps incorporate a 'before center' toggle mechanism
- Generate higher clamping forces with locking ability
- Built-in 'stroke to go' feature
- Highest industry standard repeatability

ROLLERS

Whether it's all parts bundled in an organized pack, or all parts assembled in a kit, Tech Rim Standards offers **FASTECH**: an all-in-one solution for automation tooling.

RR42 ROLFLEX CUSHION ROLLERS

- 35 Durometer RR42 Roller - covered with a cut-resistant 60 durometer "TUF TIR"™
- Strong, shock-absorbing ride
- Long-lasting, cut and wear resistant

CR42 CUSHION FINNED ROLLERS

- Extra soft material for proper treatment of fragile parts
- The finned design accentuates the cushioning effect
- Molded to a precision steel liner providing versatile mounting options

SR42 ROLFLEX CUSHION ROLLERS

- Perfect for transfer of heavy pallets, crates, stampings, and castings
- Low-level noise operation
- Extra-long service life

TECH-PIVOT'S

The Tech-Pivot provides multiple mounting and modular sizing options - as well as inventory choices packaged in a powerful and competitively priced product.

- Fully adjustable opening angles
- Lockout pin hole access
- Adjustable integrated shocks
- Prox Switch ready [mounting]
- Flexible/Compact design
- Internal Coil Scraper for Weld Debris Protection
- 1 Body Size can accommodate both the 80mm and 100mm bore cylinders - optimizing possible design changes
- Variable Stroke Options
