

MINIMIZE TRIPPING HAZARDS! MAXIMIZE SAFETY IN THE WORKPLACE

Cable organization is a major safety issue for many facilities across many industries.

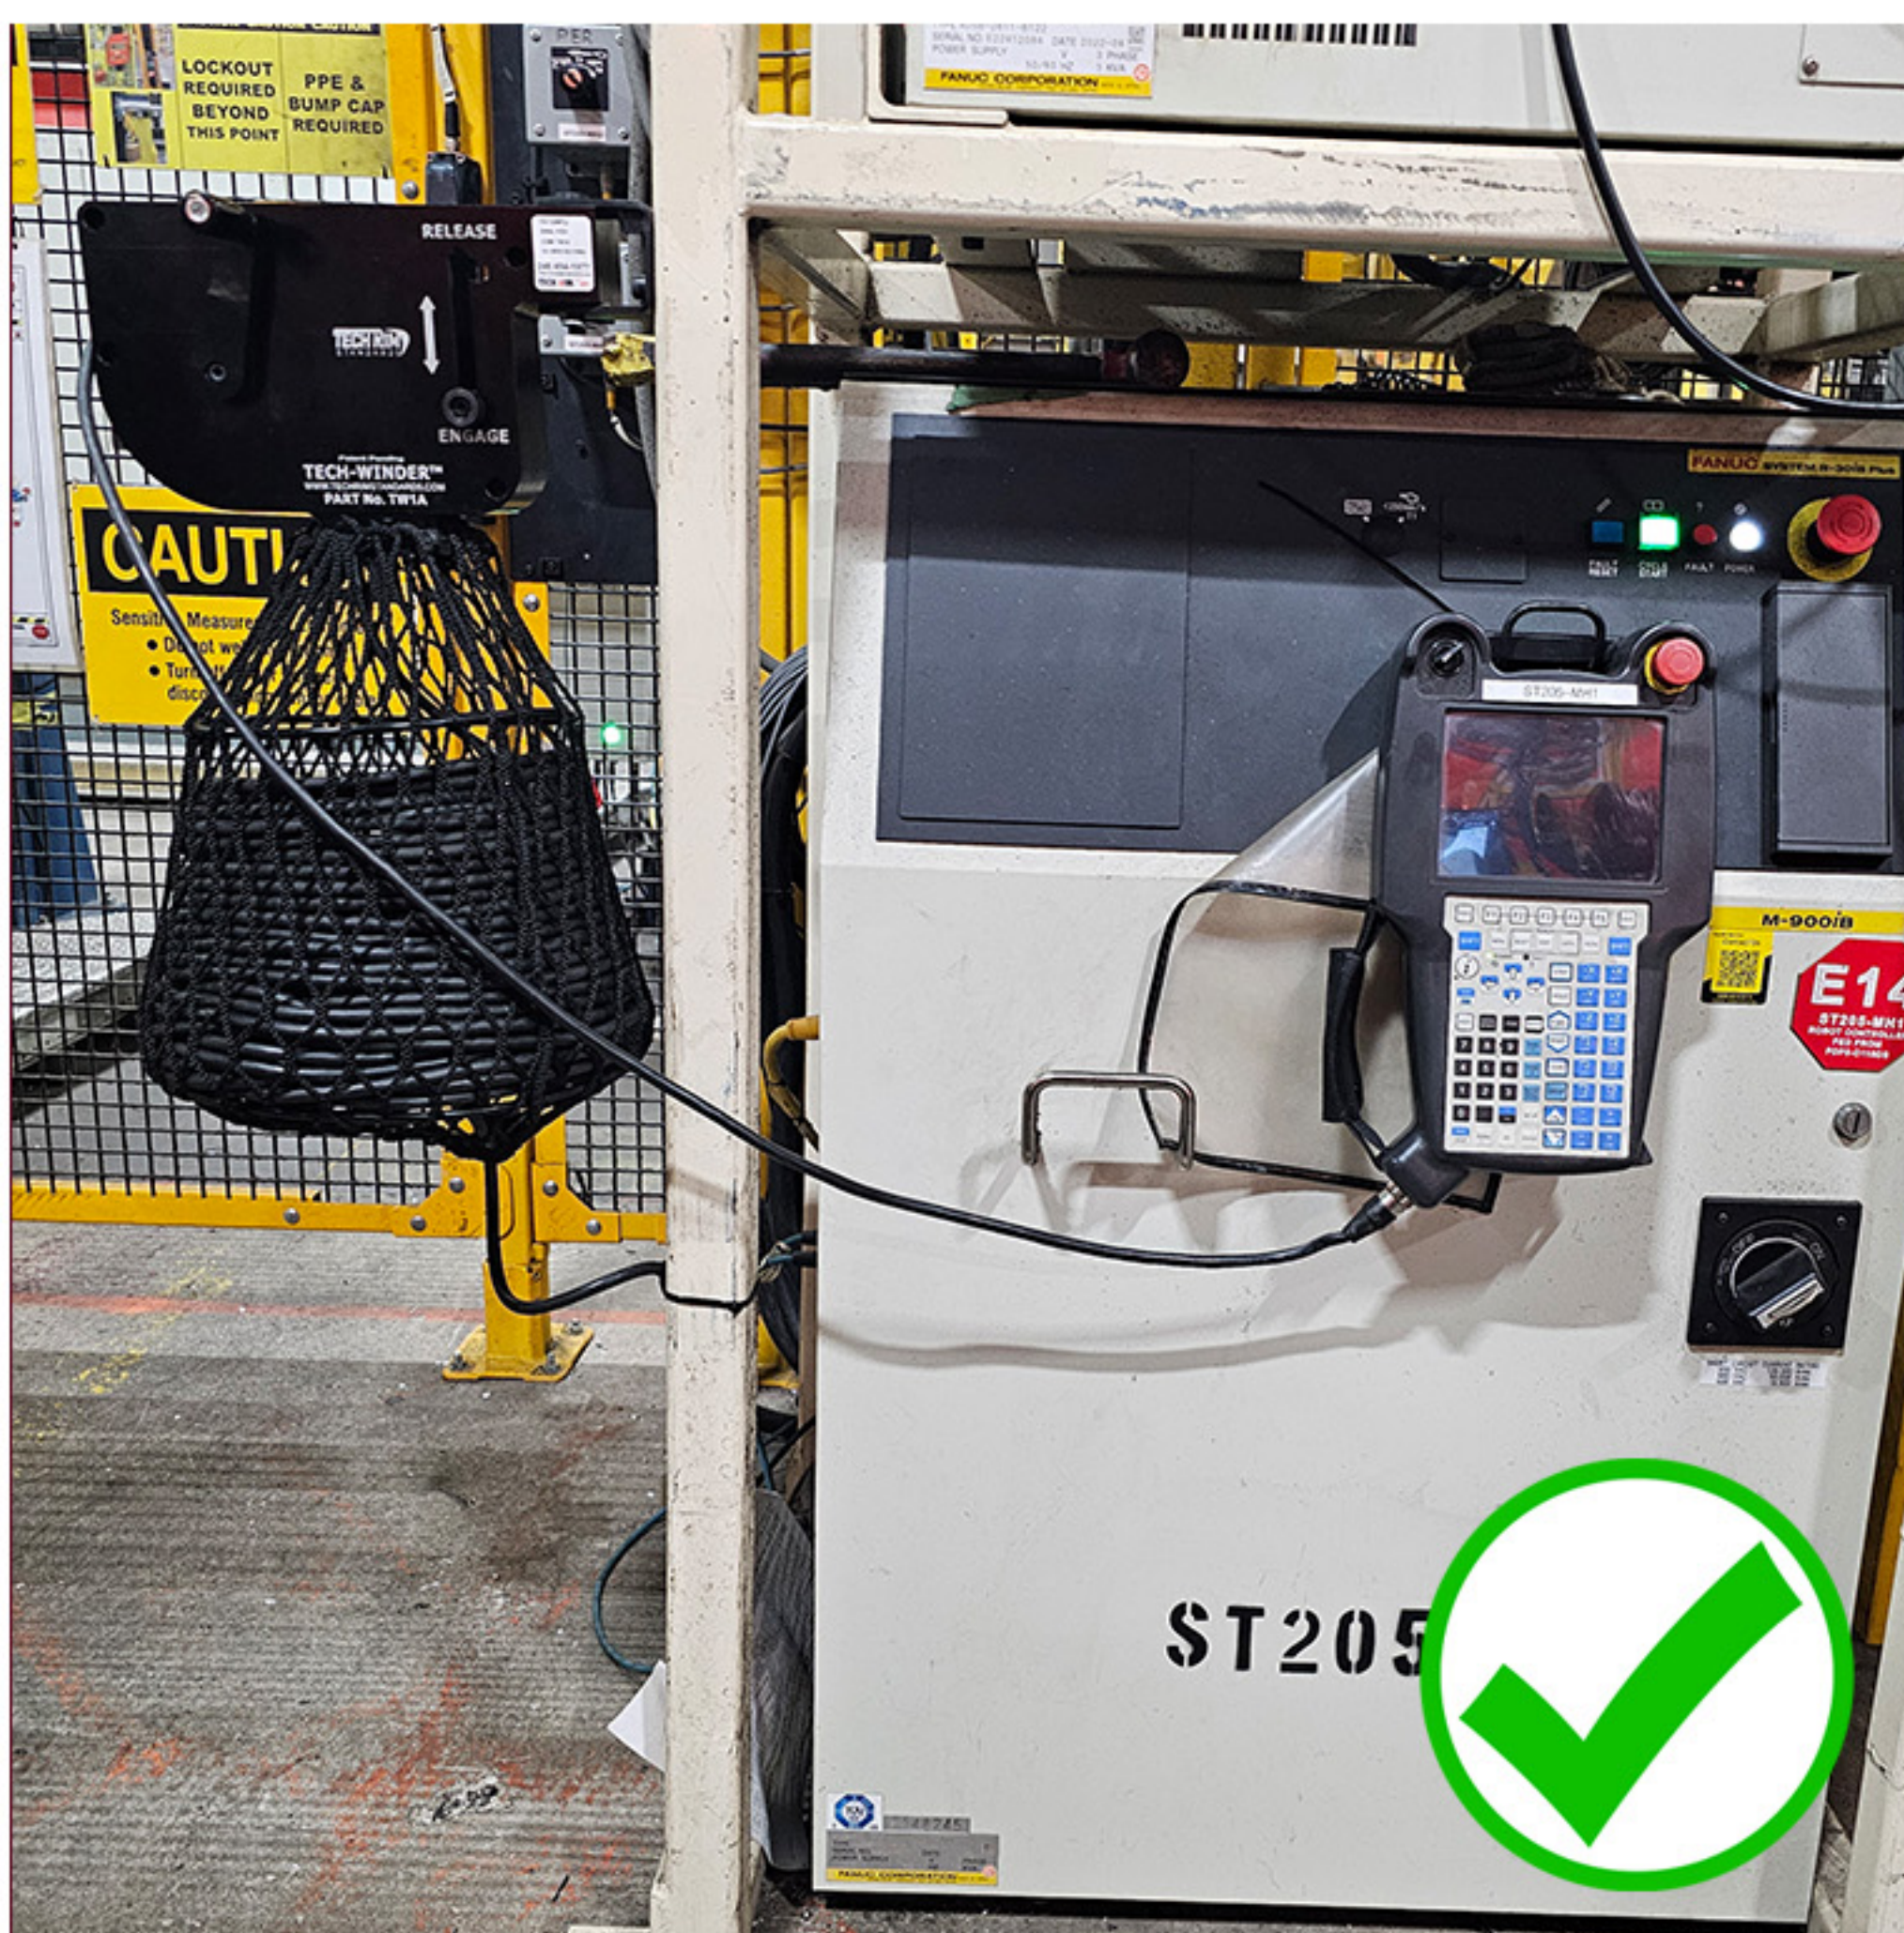

The Tech-Winder™ not only ensures that cables are off the floor, but it's built to be tough and easy to operate.

Configurable to all robot/pendant cable sizes with new options for longer cords, extension cables, and adapters.

TECH-WINDER™ FEATURES

- High-torque industrial neoprene roller ensures pinch-free operation.
- Tangle-free, Single-hand operator use.
- Single point release or engage mechanism.
- Mount bracket allows 180° travel.
- Fire-retardant net ideal for harsh manufacturing environments.

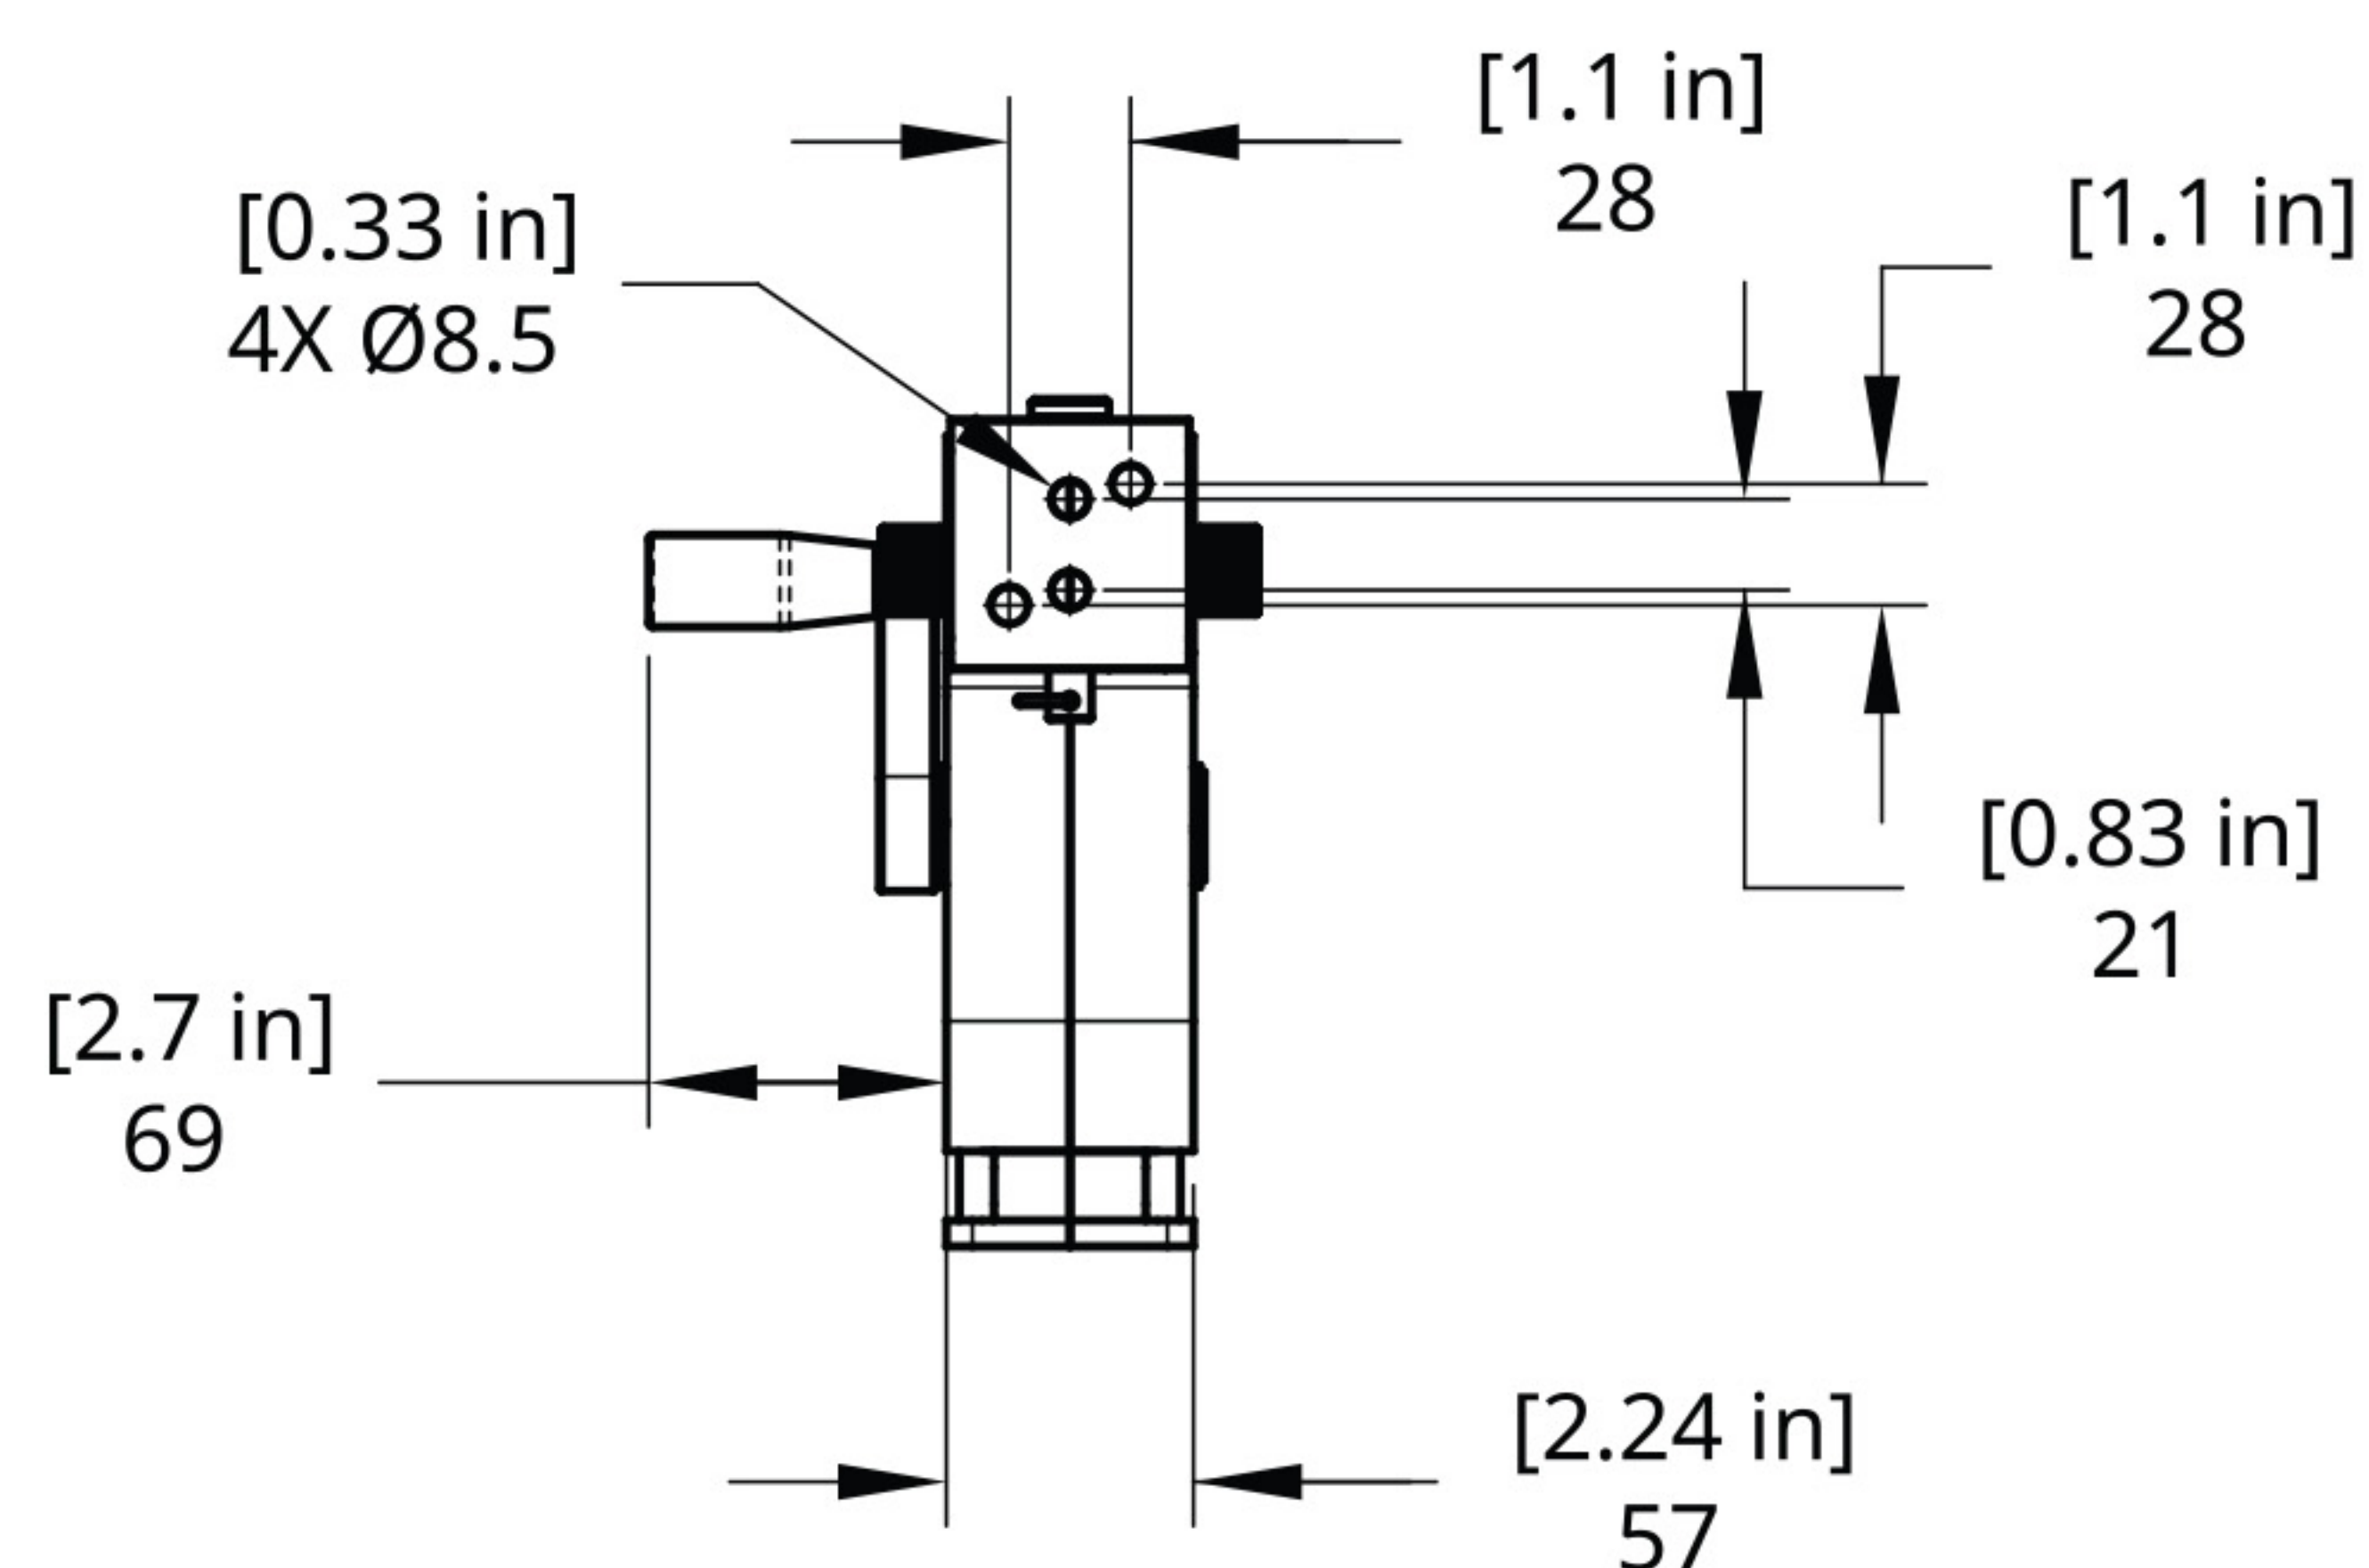

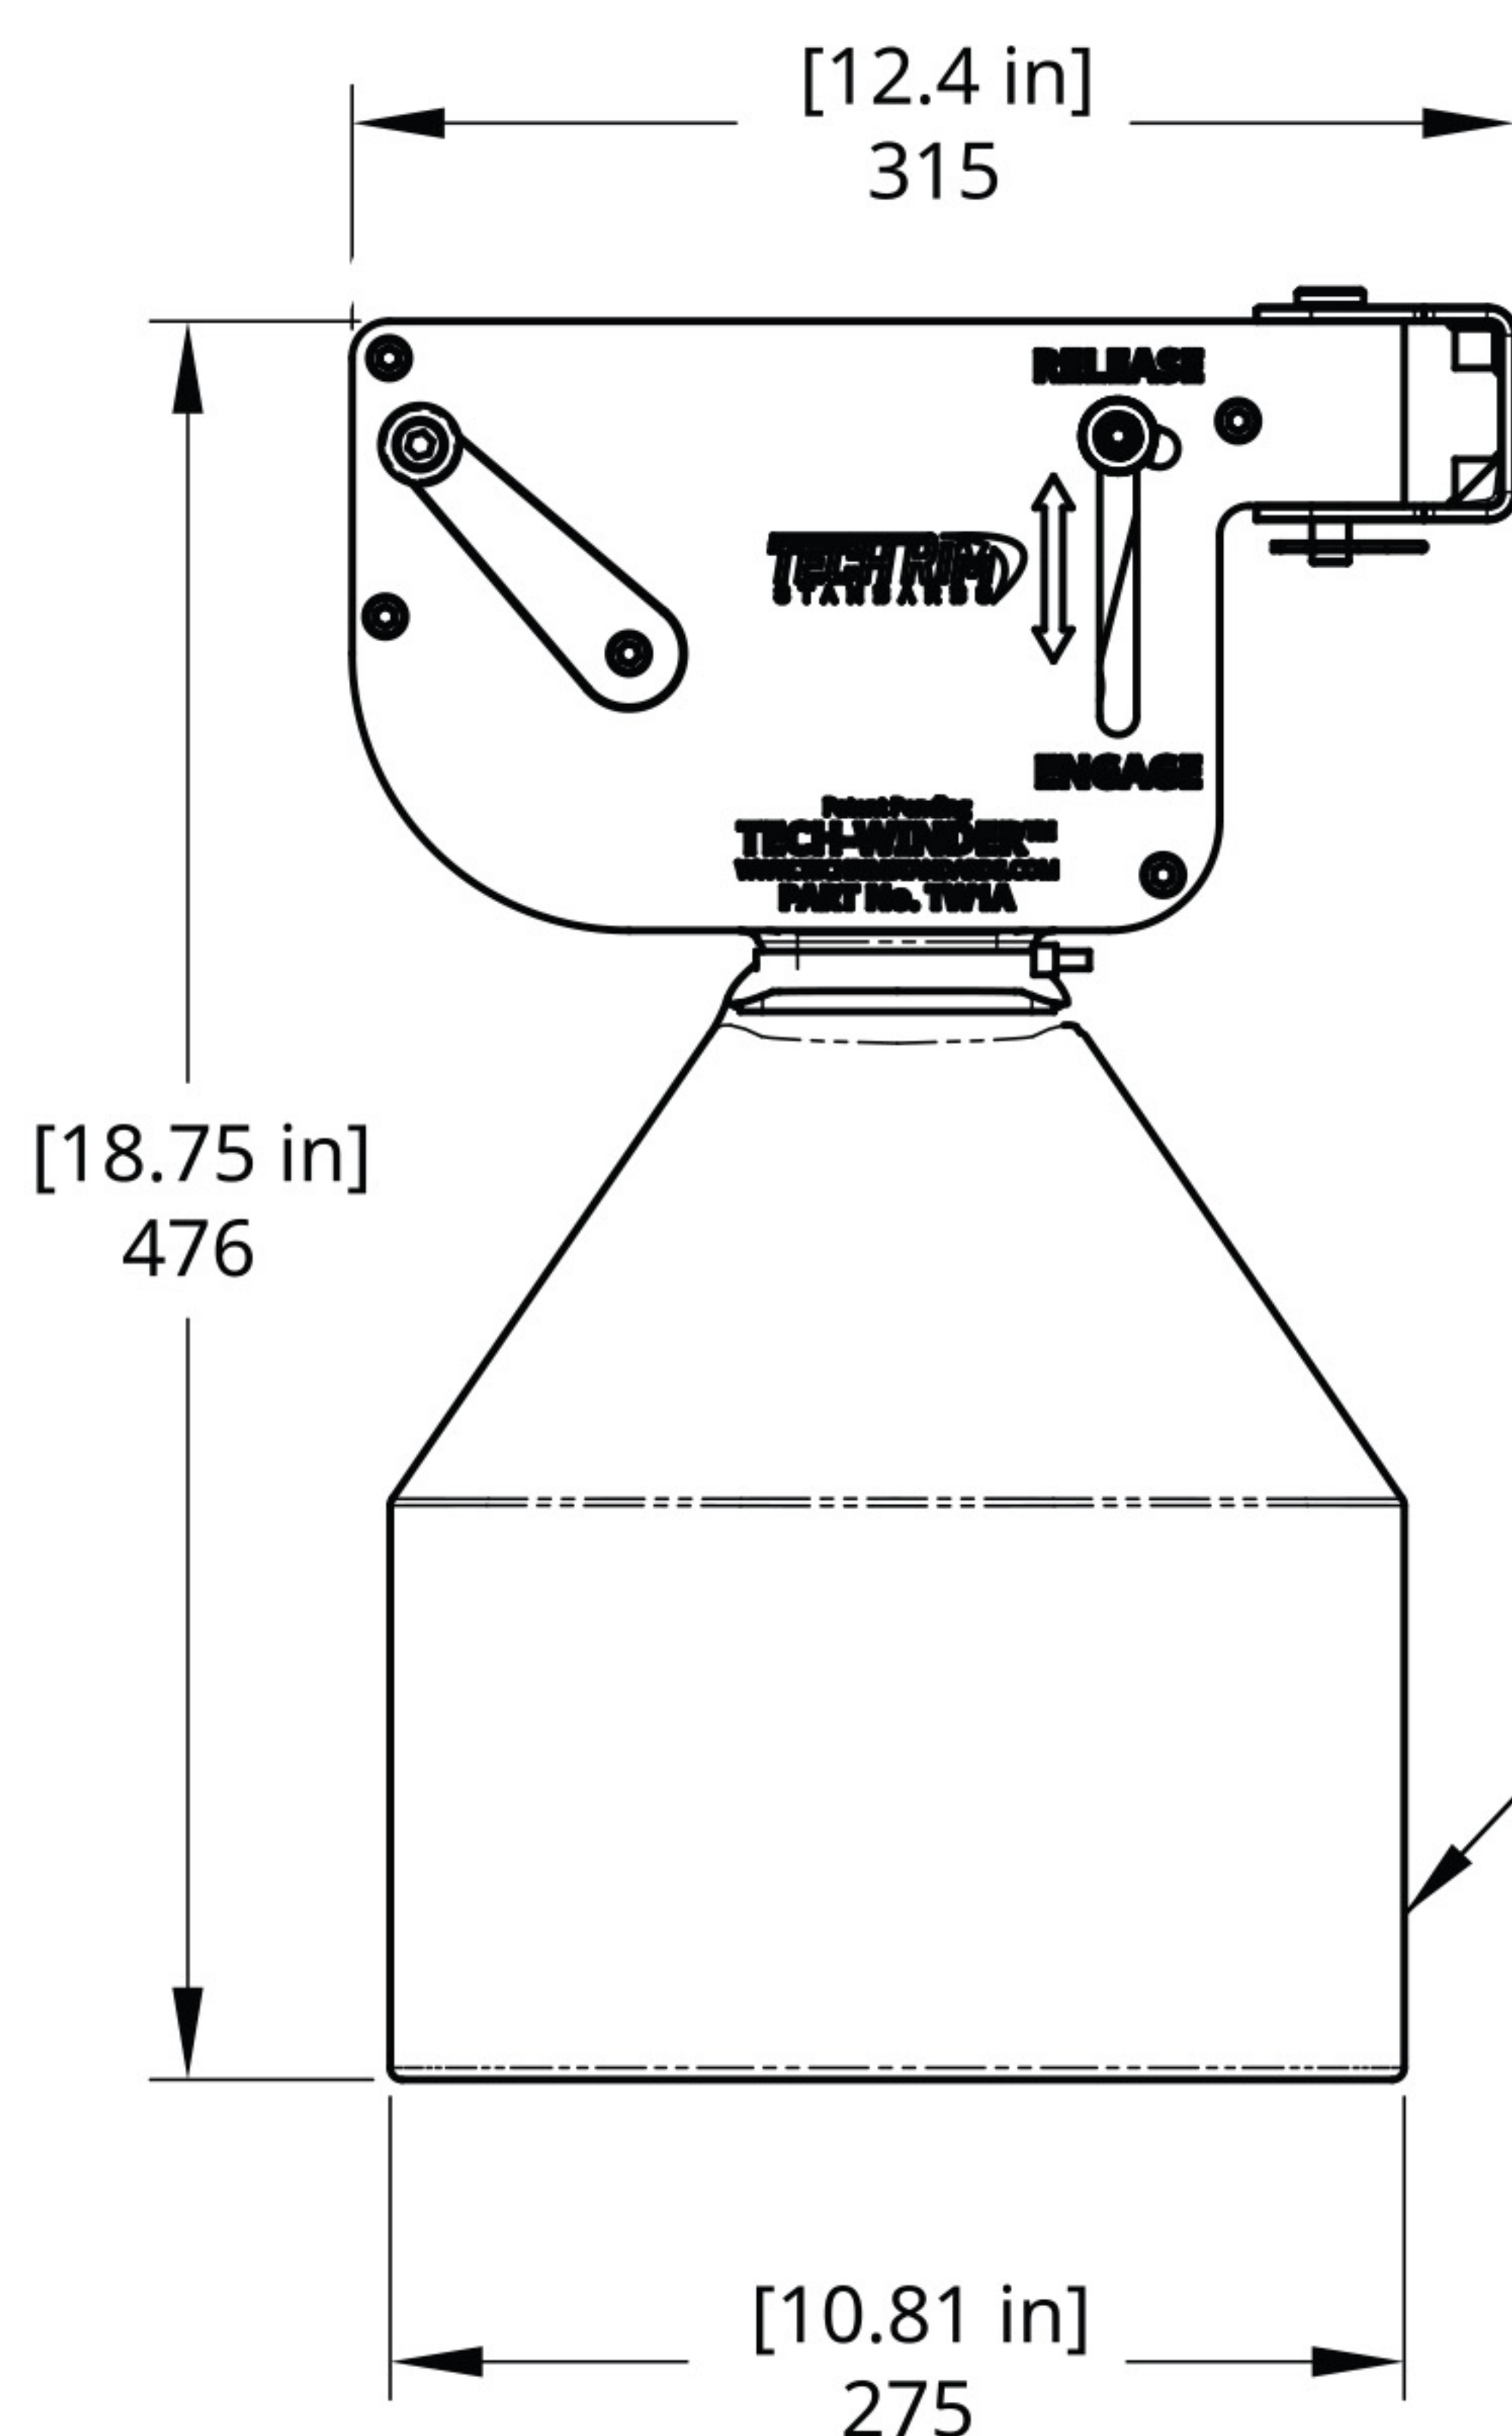

ORDERING INFORMATION

TW1A	Tech-Winder™ for teach pendant cables with cords shorter than 50m (150ft)
TW1A-CG1	Tech-Winder™ for teach pendant cables with extension cables
TW1A-XL40	Tech-Winder™ for teach pendant cables with cords longer than 50m (150ft)

TECHNICAL INFORMATION

Item Weight	3.1kg (6.8lbs)
Overall Dimensions	315 x 140 x 470mm
Cable Storage	Stores up to 50 meters / 9 kg (150ft / 20lbs)
Cable Diameter Range	4.5 - 10.0mm (Cable diameter > 10mm may require two hand operation)

PHYSICAL DIMENSIONS

FLAME RETARDANT NETTING
FOR CABLE STORAGE
